

Nima Ansari

DevOps / Networks / Infrastructure

Bushehr, Iran | nefikoo@gmail.com | +98 901 922 2490

I live in Bushehr, Iran. I work with Linux servers, VPS services, networks, datacenter infrastructure and automation, alongside my business projects.

EXPERIENCE

CloudSAYA.ir | Founder & Technical Operator

Operate a live multi-provider VPS platform with API integrations, a user panel and payment workflows; offer hourly and monthly international VPS services.

Managed and provisioned **50+ VPS instances** over time; currently maintain **6 active VPS environments** across different providers and countries.

Administer Ubuntu servers, SSH access, permissions, systemd services, cron jobs, logs, Nginx, Docker and DNS; handle routine troubleshooting.

Customade.ir | Owner & Website Administrator

Own Customade, a shoe and bag business with an online store and a physical store in Bushehr. Run the physical store and manage the WordPress website, hosting, updates, configuration and troubleshooting.

TECHNICAL SKILLS

Network: Port forwarding, tunneling, proxy / reverse proxy, routing tables, load balancing, DNS, UFW / firewall and connectivity troubleshooting.

Linux & VPS: Ubuntu, SSH, permissions, systemd, cron, logs, Nginx, Docker, VPS provisioning and administration.

VPN & web: Xray core / x-ui, V2Ray-based services, Cloudflare, hosting, domains, DNS and WordPress.

Troubleshooting: ping, traceroute, curl, ss / netstat, top / htop, journalctl and systemctl.

Automation: Telegram bots, x-ui panel integrations, provider APIs, basic Python, Git / GitHub (clone, pull, push, commit, branch, merge), AI-assisted coding (vibe coding) and working effectively with LLMs.

Labs: Cisco / Packet Tracer practice. **Chemistry:** Laboratory safety and solution preparation training; design of experiments coursework; molecular docking workshop.

PROJECTS

Saya AI: Telegram customer-support automation with customizable replies, external API integrations and configurable workflows.

NF Bot: VPN service and customer-management automation; connects to x-ui panels for live VPN configuration and service status.

CloudSAYA platform: Multi-provider VPS reselling with API integrations, a user panel and payments.

CERTIFICATES & TRAINING

Network+ & Networking Fundamentals - Faradars. ICDL; Photoshop certificate; HSE (Laboratory Safety) - Persian Gulf University, Bushehr; solution preparation course (chemistry); molecular docking workshop; design of experiments course.

Currently learning: Fiber-optic infrastructure fundamentals; continuing Cisco / Packet Tracer.

EDUCATION & LANGUAGES

B.Sc. Pure Chemistry - Persian Gulf University, Bushehr. Graduate; four years of study.

Persian: Native. **English:** Intermediate (conversational comprehension and speaking).

Additional skills: Photo & video editing, WordPress and web design basics.
